From Bump to Baby

THE MATERNITY & NEWBORN EXPERIENCE GUIDE

Thoughtfully styled. Gently photographed. Treasured forever.

KYLIE MORRISSY PHOTOGRAPHY

The beginning of everything

There is something extraordinary about the months before your baby arrives, and those first precious days together. The anticipation, the tiny details, the love that seems to grow overnight — these are moments worth remembering.

I'm Kylie, a photographer and mum of three grown-up children. I know how quickly these chapters pass. My aim is to create photographs that bring you right back to how this time felt, with a calm, welcoming experience and images you will love for years to come.

From a beautifully styled maternity portrait to the tiniest newborn fingers and toes, every session is planned with care and shaped around you.

With love, Kylie x

Only this tiny once

Newborn sessions are carefully styled and gently guided, with your baby's safety and comfort at the centre of everything I do. I have invested years in specialist newborn posing and safety training. We allow time for feeds, settling and cuddles — there is never a need to rush.

The first three weeks are ideal for capturing those beautiful, sleepy newborn poses. However, every baby is different, and beautiful portraits can be created beyond this stage too. I favour soft, natural colours and true-to-life skin tones for timeless images.

Your Baby Registry

Some gifts are outgrown. Others become part of your family story.

With the Kylie Morrissy Photography Baby Registry, family and friends can contribute towards your maternity or newborn photography experience and treasured artwork. It is a meaningful option to include with baby shower invitations or simply share with loved ones who ask what you need.

PLANNING YOUR SESSIONS

Enquire during pregnancy to plan around your due date. Newborn sessions are baby-led and allow time for feeds, settling and cuddles. Ask about extra artwork and available payment arrangements.
